Stripping made easy.

These grout style thin strips can be placed between planks and tiles to enhance a floor design.

- Stripping replicates the look of a classic tiled floor.
- Most of our flooring can be laid without stripping, but it helps define the pattern or give an authentic look.
- Stripping is available in a range of different sizes to give you the perfect finish.
- Choose a wide, contrasting strip for drama, or a slim, tonal strip to subtly highlight pattern.
- Any Amtico Signature product can be used to create customised stripping.
- We recommend that Amtico Form Stones are laid with grout style stripping for a genuine tiled look.

With a perfect balance of subtlety and drama, Colour Edit delivers an array of appealing choices.

Create your unique flooring vision with 25 expertly crafted shades, refined and developed to effortlessly complement one another.

*colour
and texture*

*Introducing four unique designs
with Colour Edit...*

Diffusion

Five fresh pastel colourways with a useable powdery texture create a gentle palette that's suitable for a variety of spaces.

1

Stucco

Stucco is softly textured for a fine, sophisticated finish. With nine colourways ranging from mottled watercolours to soft concretes and dry plaster, it is the perfect tool for experimentation.

2

Modernist

Developed through studies of Brutalist architecture, Modernist's five colourways are inspired by light patterns on concrete, creating tonal shifts that give way to soft angles and a multitude of layers.

3

Encaustic

Bring earthy, raw texture to your space with Encaustic's six colourways, influenced by the saturated tones of minerals, marble and semi-precious stones.

Stripping.

Planks and tiles can be set next to each other or divided by a thin line of stripping. The stripping helps to define your grout style and can be as subtle or bold as you like, so different size options are available to order – it’s all about the width and colour of the line.

Caring for your floor in four easy steps...

1

Protect the surface

Perfectly pristine

To keep your floor as immaculate as the day it was fitted, add protective felt feet or glides to your furniture. Included in your Amtico Starter Kit, they help reduce the risk of scratching your floor. Try increasing the contact area between your furniture and floor to spread the weight, which will also help to reduce the risk of dents.

2

Remove dust and dirt

Looking good

The key to maintaining any floor is to keep it clean, and the beauty of Amtico products is that there is very little maintenance required. Sweep frequently, mop occasionally and use an Amtico Entrance mat to reduce the chance of dirt and grime being walked onto your floor.

3

Wash and brush up

Sparkle and shine

We recommend Amtico Floorcare Maintainer for regular cleaning with a standard string mop – this will remove any marks that don't disappear with a light sweep. For full care advice, visit amtico.com or your nearest Amtico retailer.

4

Spring clean

Clean as a whistle

Once a year, or as and when required, do a deeper clean. Use Amtico Floorcare Stripper to remove any ingrained dirt – simply apply the prepared solution, leave for 10 minutes, then thoroughly rinse twice. Once the floor is dry, apply Amtico Floorcare Dressing for a fresh new look.

Amtico Spacia offers a 25-year warranty. If the house is sold, the warranty is transferable to the next and all subsequent owners, with a limit of 25 years from installation.

Amtico Form offers a 30-year warranty. If the house is sold, the warranty is transferable to the next and all subsequent owners, with a limit of 30 years from installation.

The Amtico Signature warranty is for the lifetime of the purchaser. If the house is sold, the warranty is transferable to the next and all subsequent owners, with a limit of 35 years from installation.

The warranty means that in the event of 'wear-out' from normal foot traffic, the floor will be repaired free of charge. Wear-out means the removal of the pattern and colour from the Amtico floor caused by the removal of the protective wear layer. Damage caused by stains, spillages, burns, scratches, indentations, floods and any other accidents or abuse, as well as any reduction in the surface gloss due to normal wear and tear, is excluded from the guarantee.

Every effort is made to achieve accurate reproduction of products in this brochure; however, printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They only give a general indication of the design. Tone and shading can vary slightly from batch to batch, and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification.
